gen. Math

INDEX

BARNETT, I. A. Differential Equations with a Continuous Infinitude of Variables 172

BELL, E. T. An Arithmetical Dual of Kummer's Quartic Surface . 1

CAMP, C. C. An Extension of the Sturm-Liouville Expansion . . 25

CARMICHAEL, R. D. Boundary Value and Expansion Problems: Oscillation, Comparison and Expansion Theorems. . . . 129

CHITTENDEN, E. W. On a Theorem in General Analysis and the Interrelations of Eight Fundamental Properties of Classes of Functions 153

DAUS, P. H. Normal Ternary Continued Fraction Expansions for the Cube Roots of Integers 279

DINES, L. L. A Primary Classification of Projective Transformations in Function Space 87

EMCH, ARNOLD. Incidences of Straight Lines and Plane Algebraic Curves and Surfaces Generated by Them 12

FISCHER, CHARLES ALBERT. On the Kernel of the Stieltjes Integral Corresponding to a Completely Continuous Transformation . 237

FRANKLIN, PHILIP. The Four Color Problem 225

GOKHALE, VISHNU D. Concerning Compact Kürschák Fields . . 297

HOLLCROFT, TEMPLE RICE. Plane Involutions of Order Four . . 163

LANGMAN, HARRY. Conformal Transformations of Period n and Groups Generated by Them 54

LOGSDON, MAYME IRWIN. Equivalence and Reduction of Pairs of Hermitian Forms 247

MILLER, G. A. Substitution Groups Whose Cycles of the Same Order Contain a Given Number of Letters 122

MOORE, E. H., and SMITH, H. L. A General Theory of Limits . . 102

POOR, VINCENT C. On the Theorems of Gauss and Green . . . 20

TURNER, B. M. Plane Cubics with a Given Quadrangle of Inflexions. 261

WAHLIN, G. E. The Factorization of the Rational Primes in a Cubic Domain 191

WILLIAMS, K. P. The Laplace-Poisson Mixed Equation . . . 217

ZELDIN, S. D. On the Structure of Finite Continuous Groups with a Single Infinitesimal Transformation 204
